# Magshields

A range of covers providing additional barrier protection from live terminals in accordance with NR/L2/SIG/11201 - Mod B3

Key Features:

▫ Quick and easy installation - average install time of 16 seconds.

▫ Simple, safe non-intrusive barrier.

▫ No special tools or equipment needed - only a standard 2BA nut runner required.

▫ Complete with 4mm test point holes to enable measurement and testing with covers in place.

▫ Fully compatible with terminals requiring red dome nuts.
